## Update about Glen and Dr Tracy

The double lung transplant has been successful and Glen is doing well. There have been some challenging days but the overall progress is good and Glen is up and walking (although it is not far or fast yet). He still has many health hurdles to overcome and Dr Tracy is working closely with him and the transplant team. They thank you for all the good wishes.

### **Helpful Hamish!**

Thank you to all the very patient people for allowing Hamish to help adjust them. As Sandie has been covering extra shifts for Dr Tracy she has had to bring Hamish along to work a few times.

## **Meet our new locum Brianna**

We are lucky to invite Dr Brianna Gist back this year to cover for Dr Sandie, while she is on maternity leave, and Dr Tracy, while she is off with Glen. She will be with us for a number of weeks from June to August.

Dr Brianna has been a chiropractic patient since sustaining a netball injury in high school. After seeing the fantastic health benefits that a chiropractic lifestyle can provide she decided to become a chiropractor.

She loves helping people get the most out of their lives, is highly motivated to do what is best by people and driven by compassion. Dr Brianna graduated from RMIT in 2010 and started work the day after! After working in a family practice for over three years, she decided to locum in order to travel and discover this amazing country.

Dr Brianna is looking forward to catching up with some old faces and meeting many new ones.

## What Happened in May?

Another great Chiropractic Care Week - Feel Great Again: Help is at Hand

Leiza's 50<sup>th</sup> birthday celebration

Dr Bolton's grand father was the original chiropractor in Toowoomba that Dr Hart took over from in 1964

Dr.Hart and Dr Tracy presenting Melissa Pope with the Kennedy Chiropractic Prize at the CQUniversity first graduation ball in Mackay

# Staff Update

**Dr Hart**

**Dr Hart & Dr Tracy travelled to Mackay for the graduation of the first QLD chiropractic students from CQUniversity. The Kennedy family has been involved with chiropractic since 1915 and it was an honour to present the newly graduated Dr Melissa Pope the "Kennedy Chiropractic Prize" for Clinical excellence. If you would like a free book written by Dr Keith Kennedy it is available in the reception area of the office. Dr Hart has taken on the main dog sitting duties while Dr Tracy & Glen are away in Brisbane. Thankfully with a new fully functioning hip, Dr Hart is able to keep up the wee walk schedule.**

Dr Hart is at work on Monday and Thursday.

**Dr Tracy**

Dr Tracy is currently in Brisbane with Glen after he had a double lung transplant on May 11<sup>th</sup>. It has been a big learning curve for them both. Glen has been released from hospital but still needs to stay close to the supervision of the Transplant team at Prince Charles Hospital, during this early stage of recovery.

Dr Tracy is currently on leave and will return when the time is right. She misses everyone and catches a few updates here and there.

**Dr Chan**

Dr Chan had a long weekend away hiking and camping with friends in Carnarvon Gorge during May. She has a friend visiting from Chile this month and is thinking that the 3-day 32km Hinchenbrook Island trek could be a nice idea, followed by a floatplane trip to the outer reef for some snorkeling and photography.

Dr Chan works Friday & Saturdays each week.

**Dr Tara**

Friends came up to stay from Brisbane to help Dr Tara escort her pooch, Lucca, in the Million paws walk – it was a very fun morning. In May, Dr Tara also enjoyed lots of quality time with her Godchildren and had a lovely time crashing Sue's Mother's Day brunch, as her Mum is currently driving around Australia. Dr Tara is excited about spending a week in Japan in June, and also looks forward to catching up with Dr Brianna again.

Dr Tara works Tuesday, Wednesday, Thursday, Friday and Saturdays.

**Dr Sandie**

Dr Sandie is very excited about the arrival of her new niece Genevieve and is looking forward to getting to meet her soon. Hamish, like many people at the moment, had a little cold so came and asked for an adjustment. She has been busy covering extra shifts for Dr Tracy, with the help of her offsider Hamish.

Dr Sandie will be starting maternity leave on 23<sup>rd</sup> June.

**Sue**

Sue had a lovely Mother's Day brunch with Sarah and surrogate daughter for the day, Tara. She was very spoiled, with a beautiful bunch of flowers being delivered to work, as a surprise. Sue has also been making the most of the magnificent late autumn weather, hoping it might last for weeks!

**Natalie**

Natalie absolutely loves Autumn (coming from Tassie) and it always warms her heart, especially the maples. She has been doing some crazy stuff (as her son Mitchell says) - paving on the exact same day Glen had his surgery. As she laid 800 bricks and felt like giving up, Glen's strength and bravery filtered through to help her finish her paving job...Thanks Glen!!! Oh and an adjustment was completely necessary thanks to KCC...

**Leiza**

Leiza had an absolutely fabulous 50<sup>th</sup> birthday, spoiled with flowers & lunch from the team at KCC. This was followed by a massive surprise - her son came home from Perth and they had a lovely weekend at the Sunny Coast with friends and family. It was the first time in years Leiza's had either of her kids with her for Mother's Day - so a very big treat. She has also been busy moving house... thank goodness for our fabulous Chiropractors.
