

# January 2015 Newsletter

## What happened in December?

In true Kennedy Chiropractic style we had a murder mystery Christmas party with all the crew. I am not certain how it worked out that Dr Hart was the culprit but we all had plastic knives and as they say "anyone could have dunnit!"

Dr Chantal was dressed as surfer, Dr Tracy was the Heiress, and Dr Sandie was the librarian in our murder mystery Christmas party

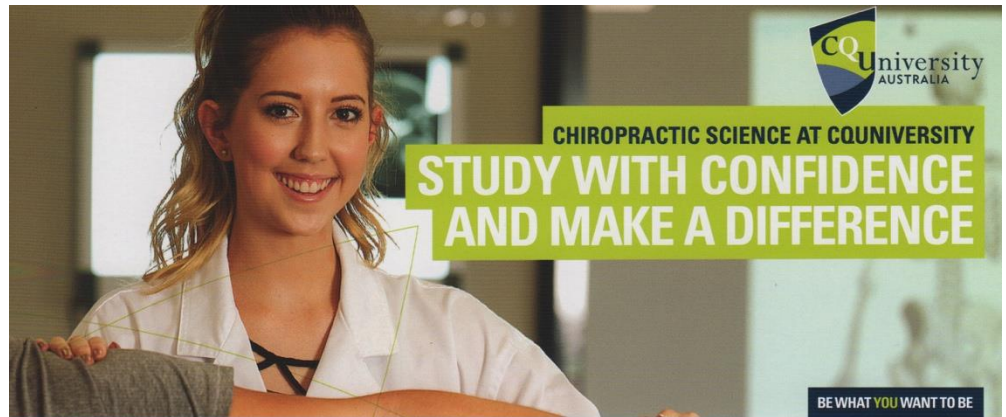

Sue in Alsace, France

Farewell to Dr Chantal going on a gap year and Dr Sandie going on Maternity leave. We will sure miss you both and want you to hurry back.

## Are you interested in becoming a chiropractor?

There is now a course in Brisbane at CQU. Dr Tracy has been involved with the course from the inception and is happy to give you more information. Chiropractic is a great career.

Dr Kirstie's little girl, Audrey, loves her tummy time!

### Dr Sandies Baby

#### Boy or Girl?

The ballot has come to a close and the votes for a new baby girl are in the lead. We will keep you posted as soon as we know!

We're on the Web!

**Dr Hart**

Dr Hart has been busy doing all those things that people on the land have to contend with all the time. After the dam became so low that the pump would only deliver mud, he had to retrieve the pump from the goo. Then it was the turn of the bore. The bore is about 600 feet deep and needs a 3-phase generator to power the pump down there. This was the perfect time for a little wire in the start up circuit to play up. Luckily, a friend did some temporary repairs, until another friend was able to consolidate the solution to the problem? Then, of course, the holding tank had run dry, which meant another clean up and prime. And so it continues, while we wait for some heavy rain to at least partially fill the dam. Dr Hart sympathises with those who do this all the time.

Dr Hart works Mondays and Thursdays.

**Dr Tracy**

Dr Tracy & Glen had another quiet family Christmas this year on the veranda with pancakes and bubbles. She thoroughly enjoyed the December festivities including the Office Christmas party but was sad to say farewell to Drs Sandie & Chantal for now.

Dr Tracy works on Tuesday, Wednesday, Friday & Saturdays and more in the new year

**Dr Meghan**

Dr Meghan and her family had a lovely quiet Christmas at home and a camp out for New Years. The kids weren't spoilt too much as they are off on holidays in January and will be treated to a sleepover at Dubbo zoo.

Dr Meghan works Fridays and the occasional extra Saturday to help out.

**Dr Tara**

Dr Tara has enjoyed having her family 'up the range' for Christmas. She saw New Year in Melbourne then spent time in Emerald with her nephew. Back to kick off the year at KCC in style. She hopes you have all had a safe and happy festive season.

Dr Tara will be in the office Tuesday, Wednesday, Thursday, Friday and Saturday in 2015.

**Sue**

Sue is having a wonderful time in Belgium and France. No snow in Belgium for Xmas, but very heavy snow in Alsace, France, on Boxing Day. She is having withdrawals from the sun though.

**Natalie**

Natalie had a lovely Christmas and New Year and wishes everyone the best for 2015.

**Vicki**

The end of the year was filled with so many celebrations and festivities, coupled with departures and farewells all of which Vicki finds overwhelming with such a busy schedule – A personal note to each of you Vicki cares with such emotion of which she is touched to share and witness each day at KCC reception. Here's to doing it all over again for 2015.

**Kaitlin**

Kaitlin had a lovely Christmas and New Year and wishes everyone the best for 2015.
